

# POST SHOW REPORT 2018

The Zak Glass Technology Expo 2018 saw exhibitors from around the world making their way to the 4-day expo to showcase and launch their latest products and inventions. The rise in visitor attendance is a testament to the rising popularity of the Indian Glass Production industry and the demand for latest technologies and solutions. The 16<sup>th</sup> edition of the Zak Glass Technology Expo saw an unparalleled growth in visitor and exhibitor satisfaction with more than 215 exhibitors from over 18 countries.

As usual the show was nicely organised. This year ZAK demonstrated their full strength during the award function and also their commitment in giving us a new platform in 2020 in the form of a New Exhibition Centre which will be built by Reliance. We are excited for that event.

**Sameer Mohite**  
Sales Manager – Glass Processing Machinery

Thank you so much for everything! The event was a success! Thanks to Mr. Sulaiman Khan and the efforts put forth by the entire team. From the initial phone call to the last minute of the event, working with Mr. Khan & his team was a great experience. Zak Glass Expo is a wonderful platform to showcase all technologies related to Glass processing. We will definitely participate in the Zak Glass Expo in the coming years.

**Kiran Kumar P S**  
Marketing, Biesse Group

Zak Glass Technology Expo is a very good platform for us to meet our clients in India. We were able to interact with a couple of clients and look at good deals that may be beneficial to both parties in the future. We think this is a good venue to promote our float glass to the Indian market and engage with the right people such as dealers.

**Hue Shin Yen**, Asst. Manager  
CS Eco Glass (M) SDN BHD of Kibing Group

We, as HEGLA have been associated with ZAK exhibitions for over 8 years and each year on conclusion of the show, we look forward to the next edition. Such is the interest generated in the market and introduction of new products at the ZAK show. The success of the show year after year, highlights the untiring efforts of the ZAK team and their excellent co-ordination. We look forward to permanent exhibition grounds in Mumbai and New Delhi which will augment the efforts and provide a good environment for exhibitors as well as visitors. By way of feedback, ZAK may also look into ways of attracting visitors from at least the SAARC countries if not a large International spread. Hope the next edition in New Delhi, will be a step forward.

**Naresh Kumar**  
Country Representative,  
HEGLA Trading & Service GmbH

Zak exhibition is the most influential and largest professional glass exhibition in India. Every year, it attracts many professionals from the field of glass manufacturing & glass processing. Our company is honoured to have participated in the 16<sup>th</sup> Zak International Glass Industry Exhibition in Mumbai. During the four-day exhibition, we received hundreds of customers and showed Jinglass's advanced technology and equipment to more than 20,000 professional visitors from various countries. In recent years, the Indian glass market has developed rapidly and the demand for glass processing equipment is also increasing. This exhibition further deepened our company's understanding of the Indian glass market and showed us the potential of the Indian market. It also provides a good platform between our company and customers for communication and further cooperation. Best wishes for the 17<sup>th</sup> India Zak International Glass Industry Exhibition.
